Process flow to IQA approver MQFF

1. Once all approvers have approved the MQFF, the system will automatically route the submission to IQA for final approval.
2. Upon verification, if IQA confirms that the reject is valid, they must approve the MQFF.
3. After IQA approval, the system will send an email notification to all relevant parties (Originator, First Approver, and Final Approver) informing them of the final status of the MQFF

Note:

- If any approver selects "Reject", the MQFF submission, process will not continue the routing process. The final status of the MQFF will be marked as "REJECT". The system will then notify all relevant parties (Originator, First Approver, and Final Approver) of the final status.
